***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

***** FIRST PART *****

**Chapter 1:
General characteristics of the year. The external conditions.**

Solar Return Ascendant Libra :

Your social life will flourish this year. Your attitude will be more open and agreeable, bringing new people into your life and also strengthening old friendships. You will prefer to be with others rather than being alone. You will meet people who will play an important part in your future. There is a possibility of beginning a significant professional or business relationship that could lead to a deep romantic tie later on. If you are single, you may establish a relationship that could turn into a committed partnership in the future. If you are already in a relationship, you will feel inclined to share many activities with your partner and could work on joint projects together. If you are seriously involved with someone, this may be the year you make the big commitment! In any case, this year should bring you the affection you yearn for.

Your artistic inspirations and a need for harmony in your environment will be emphasized. Most of the time you will find it easier to be diplomatic and agreeable when dealing with others. If by nature you have a strong and more aggressive temperament, you will tend to be more agreeable than usual during this period. But if you tend to be generally more easy-going and passive, this year you will need to guard against being too easy and agreeable. You will also lean toward physical ease and comfort. Your decision-making abilities may not be functioning as well as usual.

You could be plagued by doubt and more than once confronted with the difficult task of choosing between two or more options. You will find yourself listening to the opinions and suggestions of others, not able to decide. Your need for balance and fairness won't allow you to take lightly the decisions you have to make.

This influence also brings issues related to legal documents, litigation, and paper work in general. Any legal or bureaucratic problems can be resolved swiftly and smoothly. Any legal cases initiated or judgments requested will probably be solved with comparative ease.

You will be inclined to want to improve the way you look. You may wish to change your hair style or buy new clothes. You may decide to go on a diet or firm up at the gym. Others will probably notice and compliment you on your improvements.

In respect to your health, Libra rules the kidneys and it would be wise to drink a

lot of fluids to eliminate the toxins in the system. Under this influence you are inclined to become lazy as far as physical exercise is concerned, which could lead to circulation problems. Besides that, you may develop a sweet tooth during this time.

In spite of your desire for balance and peace, you might find that you attract Aries types who will challenge you to confrontation. Perhaps it is a family member or business associate, who will become very dominant and demanding, creating conflicts and fights. It will up to you to keep the peace!

Solar Return MC Cancer:

This year part of your professional activity could involve the public in some way. Your sensitivities will be stronger than usual, and you could be concerned with improving your social position. You will be more aware of how others see you and might be concerned about blending in with the crowd. You could establish very important personal contacts without even looking for them. You will attract attention with what you are doing, which will result in your receiving special public acclaim. You could also receive some favors from others. You could find it difficult, however, in living up to the expectations of your public. There is also the possibility that your income will not be as steady and regular as it has usually been.

You will find yourself getting in touch with your inner feelings more than usual. It is wise to listen to those inner messages and try to understand what they are saying and then act on it. Have confidence in your own intuition!

Women could have a role to play in your life this year and could have a strong influence on you now. You could be more involved in family matters which could affect you in both positive and negative ways.

You will be involved in getting your own house in order and will seek more stability and tranquility than you have had in the past. You will find that the problems you have can be solved now, thanks to your mature and serious approach to them and to the part your family will play in helping you. You will want to exercise your own authority in achieving the order you long for. If you live alone, you could feel dissatisfied with your solitude and will begin looking around for a companion.

Chapter 2: Astrological influence of your personality.

Sun in 8th house:

This solar influence produces profound changes, especially in regard to your inner self. You will have to confront old fears, anger, or memories that stick in your mind and chain you to the past. It is a year of regeneration, liberation and transformation, and you may not consider it to be an exactly easy year. You will be guided to search your inner self and identify and release any repressed negative feelings which are holding you back or preventing you from living a free and creative life.

In the material world, this influence favors the acquisition of money through inheritance, legacies, gifts or donations. It could also indicate financial gain from your partner if you are in a committed relationship. Any legal matters, litigations or judgments you may be involved in are likely to be settled in your favor during this time.

It is important to watch your health during this year. There could be danger of accidents or an aggravation of some existing illness. Actually, your well-being depends a lot on your psychological and emotional state. If you have issues that you haven't dealt with, this would be a good time to seek out professional help.

In no way will this period pass unnoticed in your life. You will go through a process of inner change that will make you a different person in the following years. Listen sincerely to the dictations of your inner voice and your intuition.

You have a greater interest in the occult now and may want to study these subjects in depth. There also is a possibility to have paranormal experiences and to develop an increased power of perception.

Sun sesquiquadrate Pluto:

You could be inclined to be more impatient and inflexible than usual during this time. Be careful not to lose control when your will is opposed by others. You could have conflicts with people in authority. There is a possibility that someone in power will try to control you or, on the other hand, you may want to dominate others.

It is important to stay away from people or places where you might find yourself getting into some kind of trouble or difficulty.

Sun sesquiquadrate Asc:

Your vanity and personal pride could increase considerably during this time, causing problems with communication and relationships with people in your environment. This applies especially to people in authority. You could have disagreements with your boss at work or male family members or friends. Be aware of your actions and take care not to act too impulsively.

You could waste a lot of energy trying to impose your ideas on others and fighting with those who attempt to dominate you. Your physical body could be affected because you may drive yourself to exhaustion. It would be advisable to maintain an adequate diet during this time that gives you the necessary nutrition to keep up your energy level.

Chapter 3: The emotional world.

Solar Return Moon in Virgo :

You will be self-contained and more reserved during this time. You will be very sensitive and receptive to any criticism or comments of others, especially those coming from women. It is important for you to keep your self-esteem high and to remain on solid ground during this time so that you don't become too critical of yourself. You will tend to be more analytical, paying more attention to details than you usually do.

You may tend to be more helpful and cooperative at this time, especially with people who appeal to you. In your professional life, you could possibly become dissatisfied with your job and think about finding another one. It would be wise to think seriously before you make any changes, because you will be acting from your emotions and may not make the wisest and most advantageous decision.

You may notice that your memory is better and that you can concentrate better. You will have more interest in taking up some new study, especially in such subjects as nutrition or diet.

You may be more quiet and reserved than is normal for you this year. Or you may find yourself being victimized in some way. This could lead to your getting some sort of psychosomatic disorder. Maintain a mentally positive attitude, express your emotions freely, and use this time to study, with your goal being to know yourself better and to improve yourself.

Solar Return Moon in 12th house:

You will feel a great desire to isolate yourself from the external world and enjoy periods of solitude. Your feelings will probably be very profound, but you will be less likely to let others see them. This will not be a favorable year for social activities, as you could experience hostility or opposition from others, especially women. Watch out for secret enemies during this time that may be plotting against you. There may also be karmic debts that you need to settle now. It is important that you not succumb to negative emotions or allow yourself to have feelings of bitterness or vengeance.

This influence brings a tendency to become entangled in a complicated romantic situation, or to get involved in questionable relationships. If you do, you will have to suffer the consequences. Be more discerning in establishing more advantageous alliances that will be of benefit to you.

Your powers of perception will increase and you could have some supernatural experiences.

Moon sextile MC:

You will have a very favorable year for your personal enterprises and your work in general. You will be able to rely on the support of the public, especially that of women. Changes in your professional activity will bring you in more favorable contact with others, achieving an increase of your popularity and of your success. In return, this will be reflected in your financial income and also in your creativity.

Your emotions will be in tune with your intentions and you will concentrate your energy in one direction. Your dreams and imagination will give you new ideas to improve your work. You will be able to rely on the support of your loved ones, particularly your mother and other women, for the achievement of your objectives.

Moon sesquiquadrate Mars:

You could become very impatient, reactionary, and impulsive during this time. Your manner could be quite rude and aggressive, which could generate enmity from others. It is important to moderate your actions. This aspect also makes you prone to certain domestic accidents, particularly involving sharp metals and fire.

There also could be tension in your home and the most frequent disagreements will be with your mother or other women around you. You will receive hard criticism to which you will respond in the same way. If the tensions and problems are very serious, your health could be affected, mainly the digestive system. In a woman, this influence could also cause menstrual problems.

It is important to maintain constant physical activity because this will help to discharge the negative tensions.

If you don't deal with these fears, you will encounter similar issues in the future which might be even more difficult to resolve.

Physically, your energy level will probably be low, so it will be necessary to maintain a diet that provides the nutrition your body needs, especially calcium.

Solar Return Saturn Conjunct natal Pluto:

Because of the burden of responsibilities of your daily life, you will have a strong inner desire to make changes and transform your life.
